Behaviour & Information Technology

An international journal on the human aspects of computing

Contents
Volume 25 (2006), Numbers 1–6

Taylor & Francis
Taylor & Francis Group

NUMBER 1 JANUARY–FEBRUARY 2006

Editorial 1
Tom Stewart

Articles

Internationalisation of e-commerce: a comparison of online shopping preferences among Korean, Turkish and US populations 3
W. Hwang, H.-S. Jung and G. Salvendy

Exploring the influence of gender on the web usage via partial least squares 19
Manuel J. Sánchez-Franco

Work on the bridge – studies of officers on high-speed ferries 37
Eva Olsson and Anders Jansson

Accessibility of ATMS for the functionally illiterate through icon-based interfaces 65
A. Thatcher, S. Mahlangu and C. Zimmerman

Width guidelines for rectangular objects with penetrable and impenetrable borders 83
J. Shawn Farris, Brian R. Johnson and Keith S. Jones

NUMBER 2 MARCH–APRIL 2006

Articles

User experience – a research agenda 91
Marc Hassenzahl and Noam Tractinsky

User interfaces and consumer perceptions of online stores: the role of telepresence 99
Kil-Soo Suh and Sunhye Chang

Attention web designers: you have 50 milliseconds to make a good first impression! 115
Gitte Lindgaard, Gary Fernandes, Cathy Dudek and J. Brown̄

Interdisciplinary criticism: analysing the experience of *riot!* a location-sensitive digital narrative 127
M. Blythe, J. Reid, P. Wright and E. Geelhoed

Using psychophysiological techniques to measure user experience with entertainment technologies 141
Regan L. Mandryk, Kori M. Inkpen and Thomas W. Calvert

Affectemes and allaffects: a novel approach to coding user emotional expression during interactive experiences 159
Lesley Axelrod and Kate S. Hone

Adding method to meaning: a technique for exploring peoples' experience with technology 175
Ann Light

Usability beyond the website: an empirically grounded e-commerce evaluation instrument for the total customer experience 189
Marian Petre, Shailey Minocha and Dave Roberts

NUMBER 3 MAY–JUNE 2006

Editorial 205
Tom Stewart

Articles

Assessing the information environment in intensive care units 207
Joseph Sharit, Sara J. Czaja, Jeffrey S. Augenstein, Govind Balasubramanian and Vaunn Schell

Modelling consumer intention to use gambling technologies: an innovative approach 221
Sharen L. Nisbet

A study of the suitability of videophones for psychometric assessment 233
George Demiris, Debra Parker Oliver and Karen Courtney

Workplace user frustration with computers: an exploratory investigation of the causes and severity 239
Jonathan Lazar, Adam Jones and Ben Shneiderman

A study of presentations of mobile web banners for location-based information and entertainment information websites 253
Pei-Luen Patrick Rau, Jenwen Chen and Duye Chen

A survey of usability capability maturity models: implications for practice and research 263
Timo Jokela, Mikko Siponen, Naotake Hirasawa and Jonathan Earthy

NUMBER 4 JULY–AUGUST 2006

Special Issue:
Selected papers from the Seventh International ACM SIGACCESS Conference on Computers and Accessibility
Guest Editors: Enrico Pontelli and Andrew Sears

Editorial 283
Enrico Pontelli and Andrew Sears

Articles

Representing coordination and non-coordination in American Sign Language animations 285
Matt Huenerfauth

A user study on tactile graphic generation methods 297
S. E. Krufka and K. E. Barner

An investigation of handheld device use by older adults with age-related macular degeneration 313
V. K. Leonard, J. A. Jacko and J. J. Pizzimenti

Evaluating non-speech sound visualizations for the deaf 333
Tara Matthews, Janette Fong, F. Wai-Ling Ho-Ching and Jennifer Mankoff

Designing the user interface of the computer-based speech training system ARTUR based on early user tests 353
Olov Engwall, Olle Bälter, Anne-Marie Öster and Hedvig Kjellström

3D sound interactive environments for blind children problem solving skills 367
Jaime Sánchez and Mauricio Sáenz

NUMBER 5 SEPTEMBER–OCTOBER 2006

Editorial 379
Tom Stewart

Articles

Evaluating causes and consequences of turnover intention among IT workers: the development of a questionnaire survey 381
P. Carayon, J. Schoepke, P. L. T. Hoonakker, M. C. Haims and M. Brunette

LTV model in consultant sector. Case study: mental health clinic 399
Mohammad J. Tarokh and Aydin Akbari Sekhavat

The effect of computer self-efficacy on enterprise resource planning usage 407
Ya-Yueh Shih

On keys' meanings and modes: the impact of different key solutions on children's efficiency using a mobile phone 413
